The following is an Examiner's statement of reasons for allowance.

The prior art of record does not teach or fairly suggest at least:

A method, apparatus and system for, " identifying essential software within a device, the essential software including software necessary to operate the device and provide external communications; identifying remaining portions of software within the device as nonessential software; downloading new essential software from an external source to the device and storing the new essential software in memory by overwriting at least a portion of the non-essential software and upon successfully operating the device and providing external communications using the new essential software, selectively downloading new non-essential software and storing the new non-essential software in memory by overwriting at least a portion of either the essential software or the non-essential software ", as best illustrated by figures 3 and 4, and in such a manner as recited in independent claims 1, 9, 17 and 22 and as pointed out in Applicant's amendment (1/04/2006) on pages 10 - 12.

Art Unit: 2192

Therefore, claims 1, 2, 4 – 10, 12 – 18, 20 – 23 and 25 – 31 are in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
